■ EXPERIENCE

Senior Software Development Specialist (Product Designer)

Apr 2022 – Present

REWE International AG · Vienna

- Led end-to-end UX design of a nationwide self-checkout system (enterprise embedded system) deployed across Austria — research, interaction design, and handoff to C++ engineering teams
- Designed a white-label touch-device design system scaled across REWE, Penny, and BIPA brands and markets
- Reduced staff interventions by 13.5% and search errors by 17% through data-driven UX iteration in a live retail environment
- Implemented AI-assisted design workflows (Figma Make, Claude MCP), accelerating design delivery and design-to-dev handoff

Product Designer & Low-Code Developer

Oct 2020 – Jan 2022

Tubics · Vienna

- Built and shipped design system components using Storybook and low-code tooling; co-designed YouTube Rank Tracker launched on SEMrush App Store
- Owned full product design for a B2B SaaS platform — increased session engagement from 20% to 70%

UX/UI Designer (Part-Time)

Nov 2019 – Oct 2020

Hotelkit · Salzburg

- Designed cross-platform UX for a globally deployed hospitality product used in 1,200+ hotels

Junior UX Designer — Growth Squad

Oct 2018 – Oct 2019

WUZZUF · Cairo

- Ran UX experiments and redesigned job-posting flow; lifted form completion by 35% on a 10M+ user platform

■ PROJECTS & INTERNSHIPS

Co-founder — Frontend Engineer & Product Designer

Jul 2025 – Present

lehr.app — AI German Learning Platform

- Built the full frontend of a live AI learning platform: React, Next.js, React Query, and WebSocket-based streaming
- Engineered streaming LLM response UX — real-time WebSocket architecture reducing perceived AI latency by 1–2 minutes
- Owned all interaction design, UI, and frontend architecture as co-founder alongside a backend engineer

Frontend Developer Internship (Part-Time)

Mar 2024 – Oct 2024

Suplyd · Remote

- Shipped UI improvements using React, Ant Design, MobX, GraphQL, and Next.js in a production codebase

Full-Stack App — Event Masters (Shift Management SaaS)

2024

Personal Project

- Built multi-role shift management app with v0 frontend, Airtable backend, Clerk auth, Stripe payments, and OneSignal PWA push notifications

■ SKILLS

Frontend:

React · Next.js · TypeScript · Tailwind CSS · HTML/CSS · Framer Motion · React Query · WebSockets

Backend/DB:

Supabase · Airtable · GraphQL · MobX · REST APIs · Clerk Auth · Stripe · OneSignal

Tooling:

Git · Cursor · v0 · Claude MCP · Vercel · Figma

Design:

UI/UX Design · Design Systems · Figma · Accessibility · Interaction Design

■ EDUCATION

MSc Human-Computer Interaction

2019 – 2021

FH Salzburg

- Specialised in user research, interaction design, and 3D prototyping

BSc Material Engineering

2012 – 2018

German University in Cairo

- Engineering foundations: systems thinking, problem analysis, technical rigour
